Argentinean Parasitological Association
--

The **V Argentinean Congress of Parasitology (VCAP)** will call different specialists in Parasitology and similar disciplines as well as experts working on different host groups involved in parasitological interactions.

We invite to all interested people to participate of the VCAP with the wish that between all of us guarantee the constitution of the Argentinean Parasitological Association (APA).

The VCAP will generate a space in which advances from different investigation lines from a national and international level will be given to know.

It is also endeavoured to propitiate exchanges of work and development experiences contributing thus to promotion and diffusion for the parasitological knowledge.

The Organizing Commission of the V Argentinean Congress of Parasitology invites you to visit its web page: <http://www.apargentina.org.ar/vcap/inicio.html>. The same one is in periodic renovation and you can accede directly from this web address or through the link just in the section “novedades” from the official web page of the Argentinean Parasitological Association: <http://www.apargentina.org.ar/>

V Argentinean Congress of Parasitology

Plenary Conferences

Plenary conferences are planned in charge of distinguished scientists in the field of Parasitology.

Symposia

Symposia will group a series of panels on a particular academic topic proposed and coordinated by one or two outstanding professionals.

Sessions

Sessions will be in charge of an outstanding group of panelists who will lecture on interesting topics with a strong public impact being foreseen the participation of people in general on the discussion and treatment of topics.

Symposia and Sessions will have a duration of an hour and a half, and they will be carried out on similar topics from the thematic axes of the VCAP. Coordinators from those ones will define the number and duration of panels that could not be lower than 3 neither higher than 5.

Workshops

This kind of activity will allow the researcher who work in specific topics to analyze the situation of their study areas, and to establish lines for future and current works. Each workshop will be coordinated by one or two professionals.

Pre/post Congress Courses

The atmosphere of the VCAP will be suitable for dictation of short courses related to Parasitology which will be carried out previous or later days to the congress having the infrastructure of the Faculty of Natural Sciences and Museum.

The Organizing Commission of the **VCAP** invites the members of the scientific community to present their proposals up to November 15th, 2008.

Proposals of symposia and sessions will include the following information:
